The welding community is fully aware that welding fumes are carcinogenic. Our PAPR system achieves the best in class respiratory protection with TH3 rating. Our welding helmet offers best possible optical ratings of 1/1/1/1 and comfort. An almost unbeatable system. When welders are confident that their PPE is designed with their health and safety in mind they can concentrate on the job at hand, achieving maximum productivity.

- Simple control with only one button
- Operation time up to 10 hours with a new filter P R SL and airflow 160 l/min
- Adjustable airflow 160 lpm and 210 lpm
- Rechargeable Li-ion battery
- "Smart" battery charger indicates when charging is complete and will not overcharge
- Quick charge 3-4 hours
- Constant flow regardless of battery level
- Audiovisual and vibrating alarm indicating low airflow and low battery charge
- Breathing hose with flame retardant cover - protection from sparks and spatter
- Ergonomic shape and low weight - only 980 g
- Slim profile of the unit - only 65 mm
- Unit is CE Certified
